

## TURQUOISE ROOM OUR LEARNING SPRING 2 WEEK 4

Last week we started to learn all about Spring. We had a lovely story, 'Grow Sid Grow', which the children really enjoyed. We slightly adapted the story for our age group and the children enjoyed telling us all about Sid the Seed and how he grew into a sunflower.

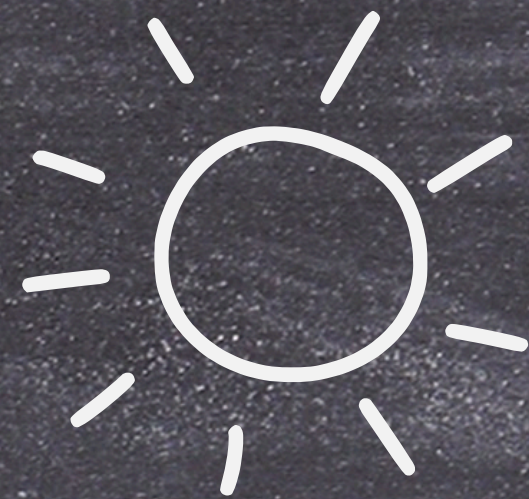

We have also talked about what changes in our environment we notice. We have talked about how the sun is feeling warmer and how the blossom on the trees is starting to come out. The children have told us they have some flowers in their garden. This has supported the children's understanding of the world, particularly in their own environment.

During creative activities the children painted their own sunflower. We showed the children a photograph and asked what they noticed about it which is supporting their subitising knowledge. During sensory play we had the compost out with the characters from 'Grow Sid Grow'!

We will be having a go at growing our own sunflowers which the children are very excited about.

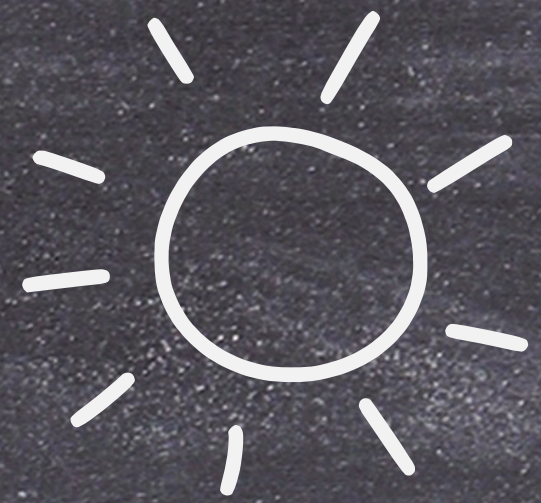

We hope you all have a lovely weekend and we will see you next week for another week of Spring and Easter activities
