

YEAR ONE~ OUR LEARNING SPRING 2 TERM WEEK 5

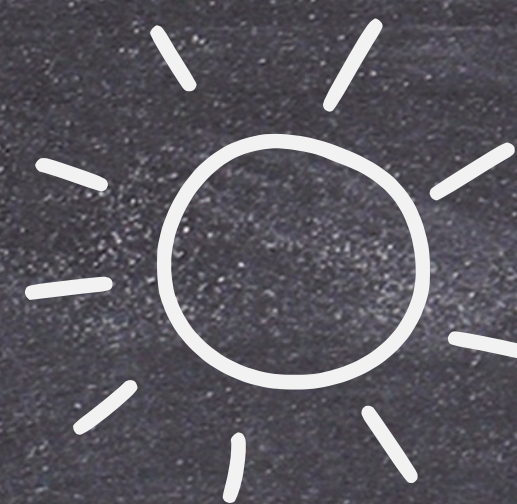

Last week in English, Year 1 had a blast writing a short retell of the story "Field Trip to the Moon." The children rehearsed their sentences using voice notes before jotting them down in their books. They thoughtfully considered their punctuation and worked hard to include conjunctions for more detailed sentences.

In maths, we focused on counting in 2s, 5s, and 10s. Our 10s hunt outside was a highlight! We played hopscotch and even created our own 5s number line by drawing around our hands. A variety of catchy songs throughout the week helped reinforce our counting skills.

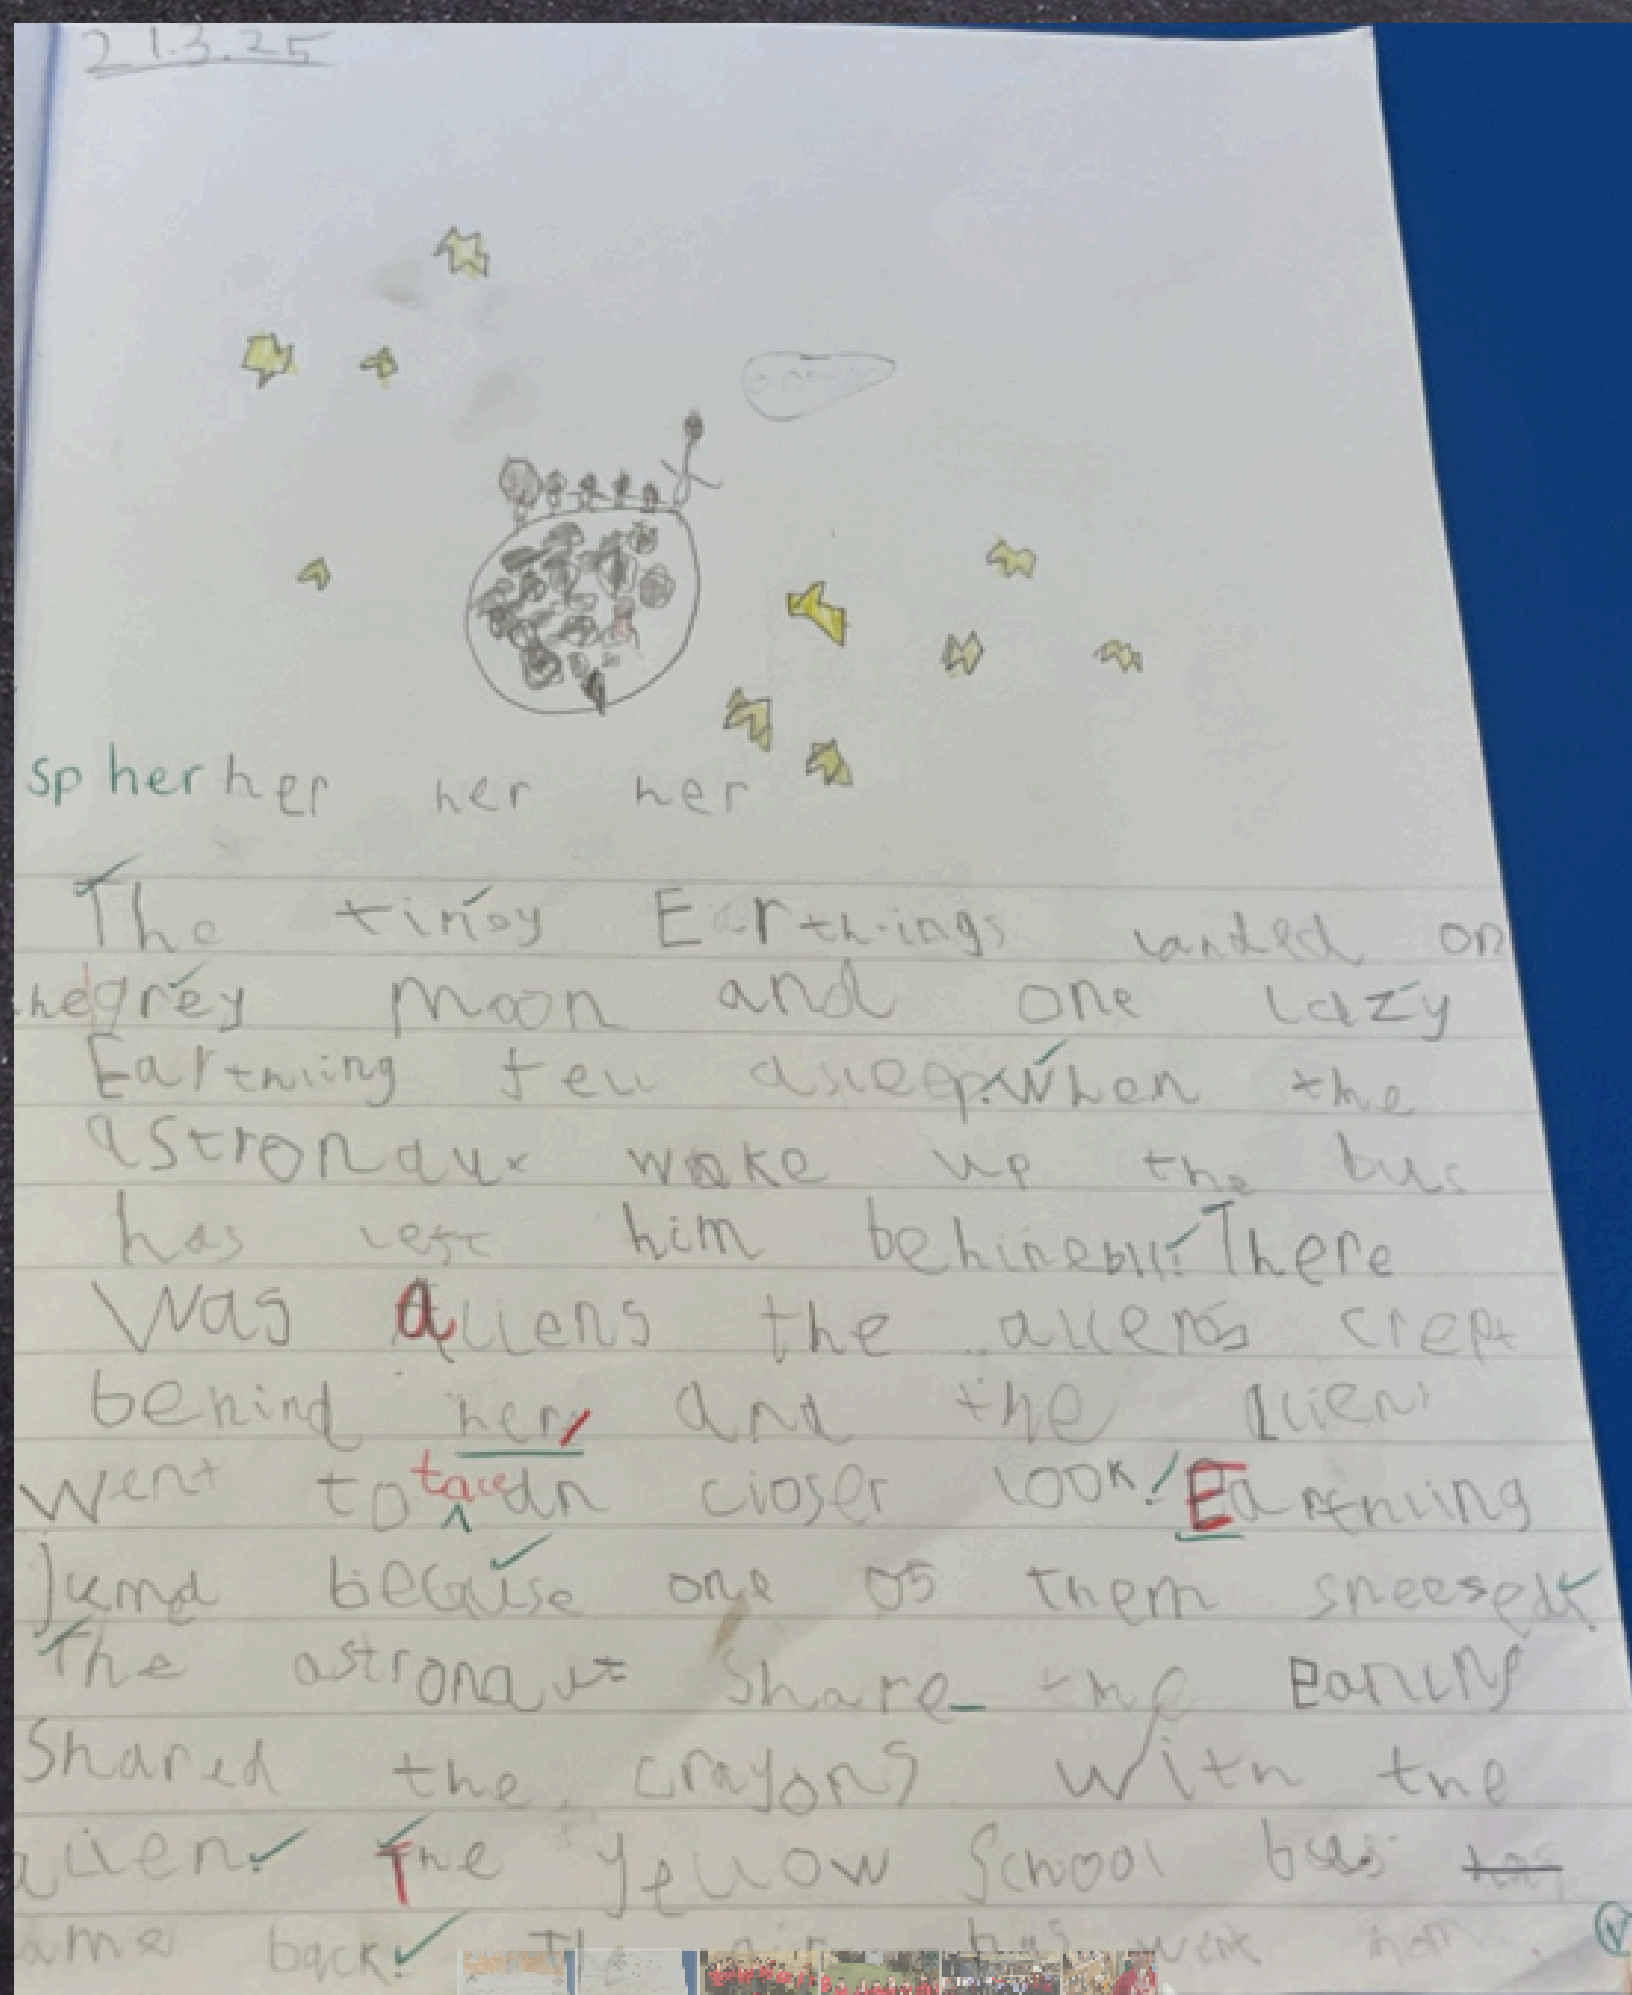

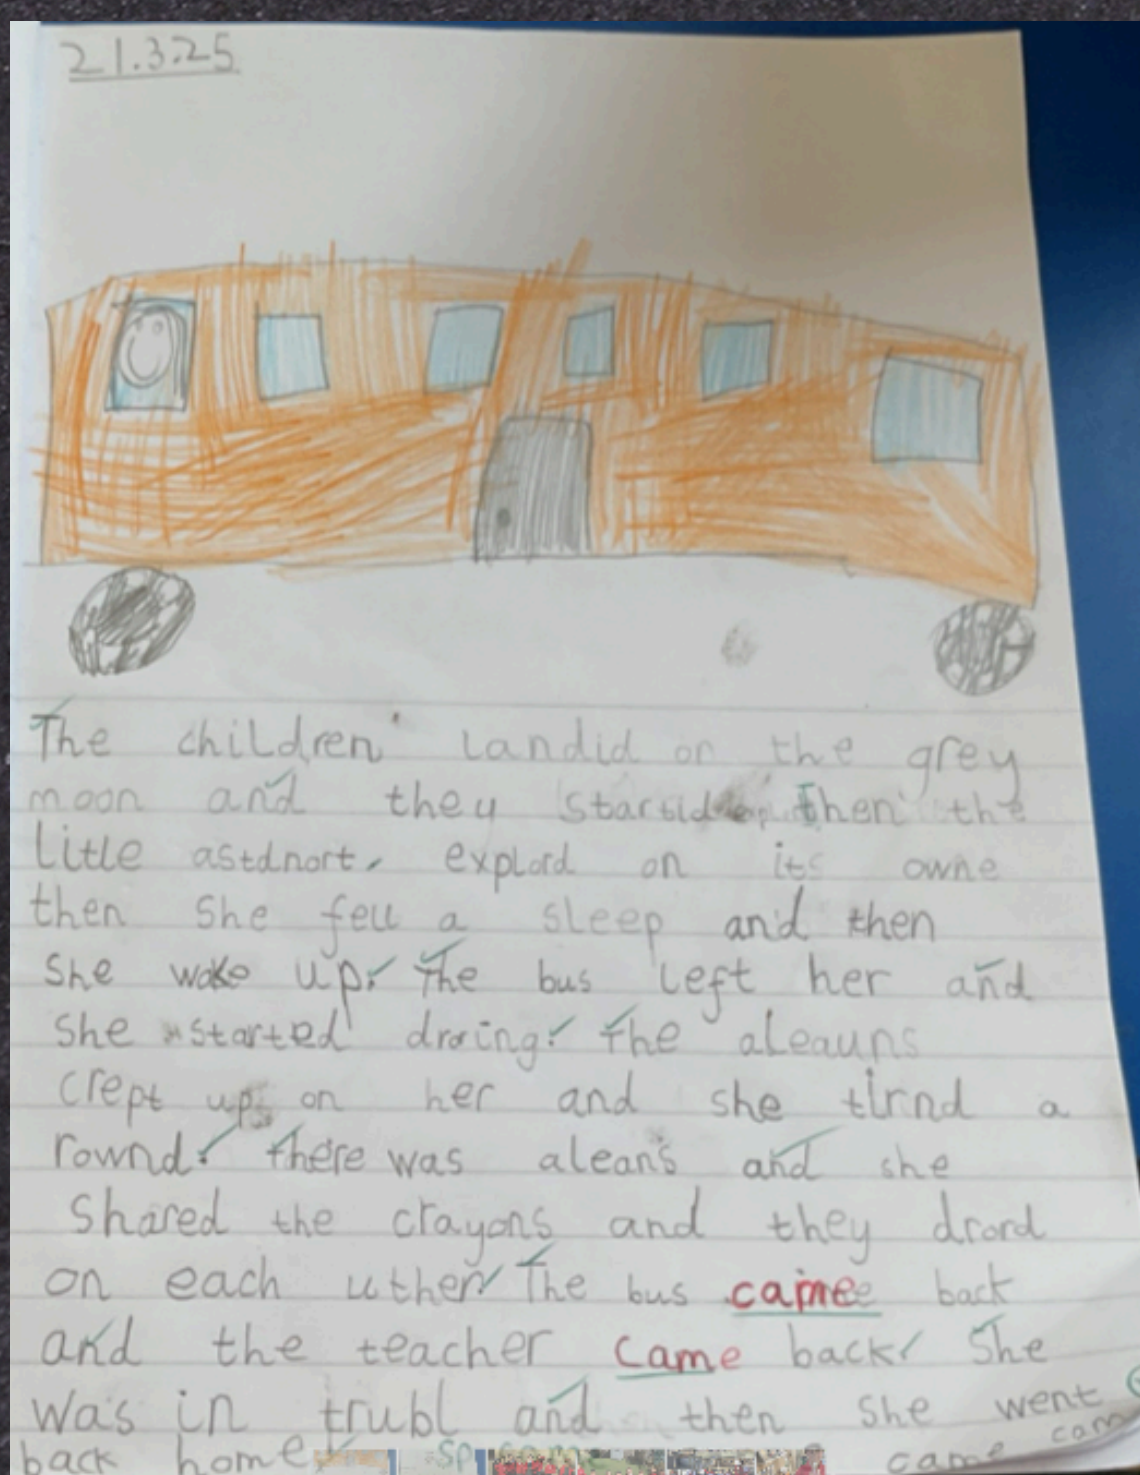

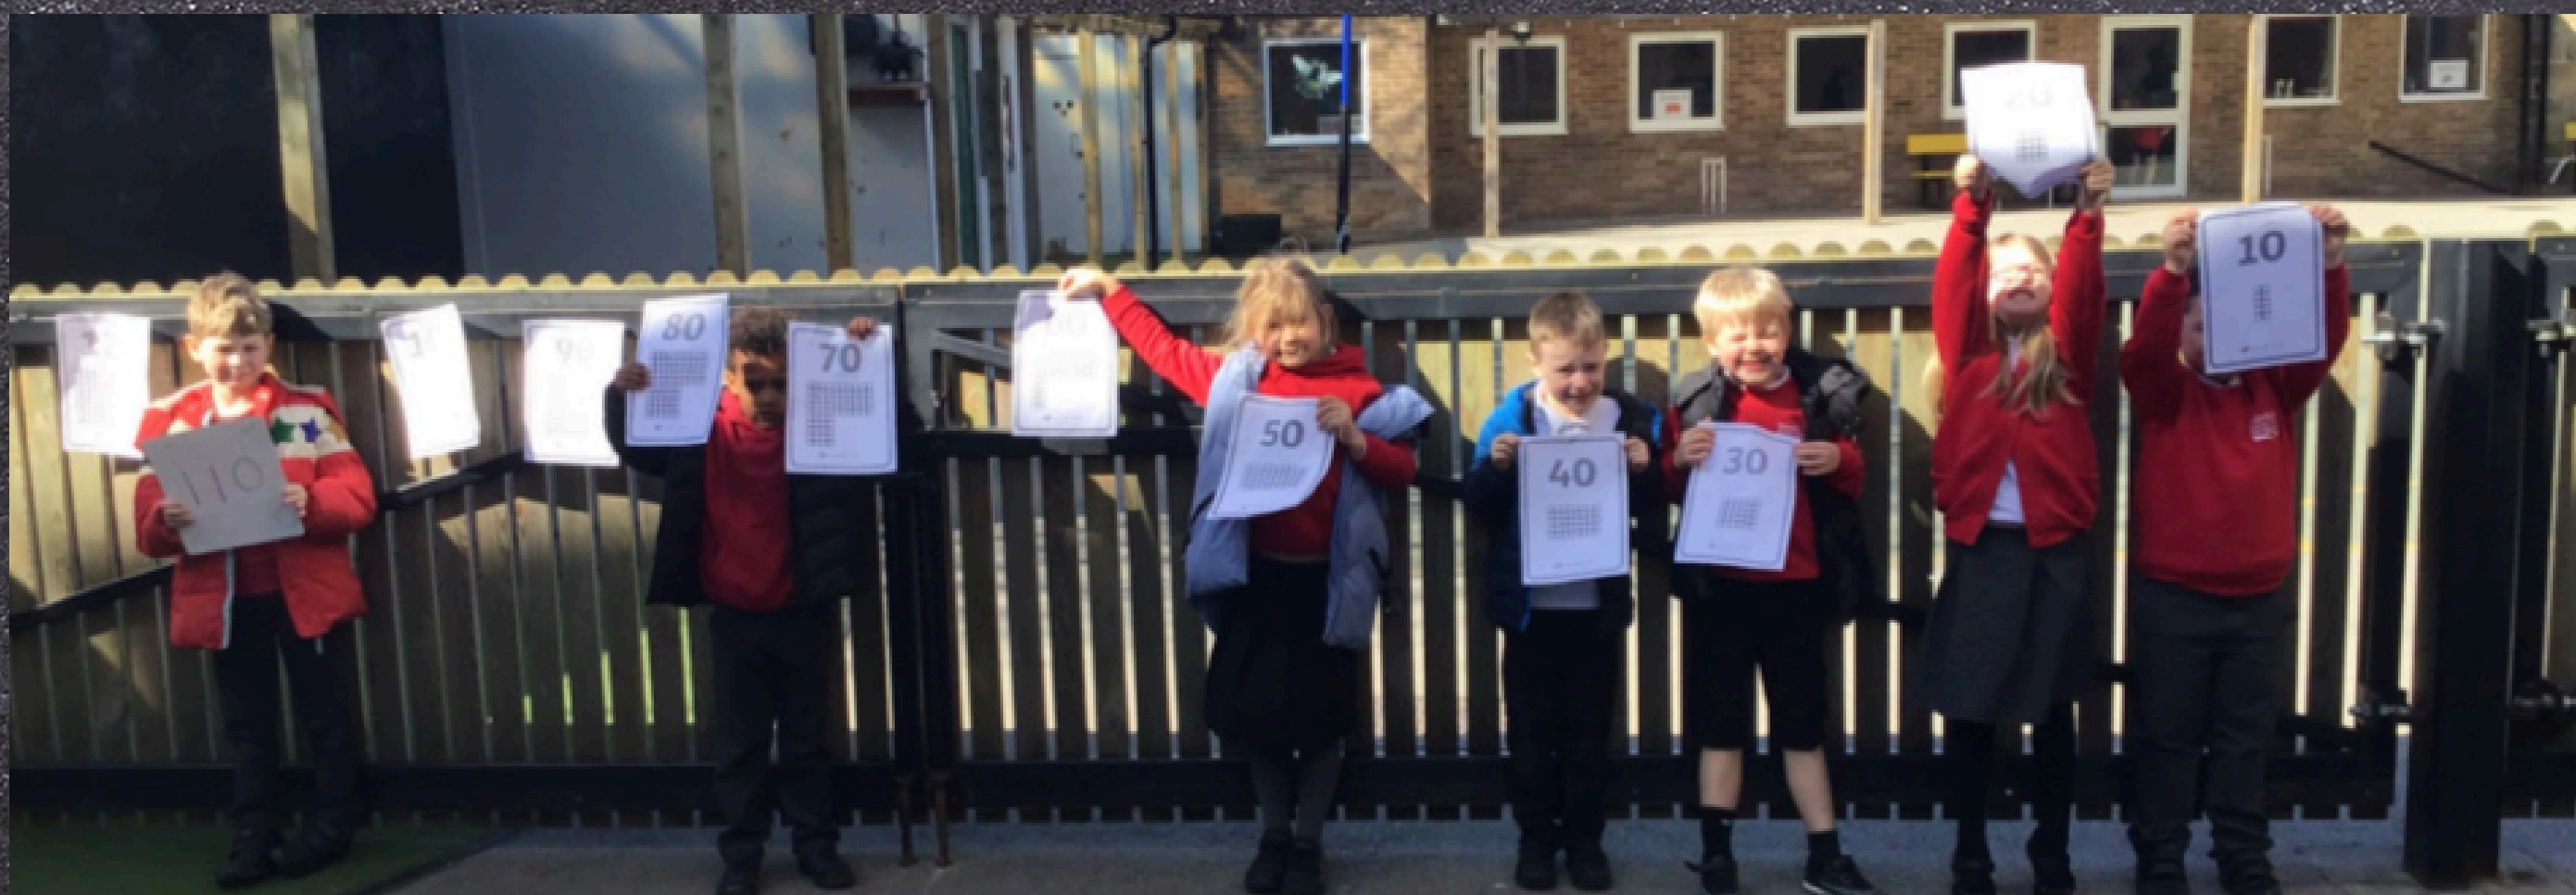

In DT, the excitement was palpable as we made our rockets! The children applied the joining techniques they learnt last week to build sturdy structures. We can't wait to see how they decorate them!

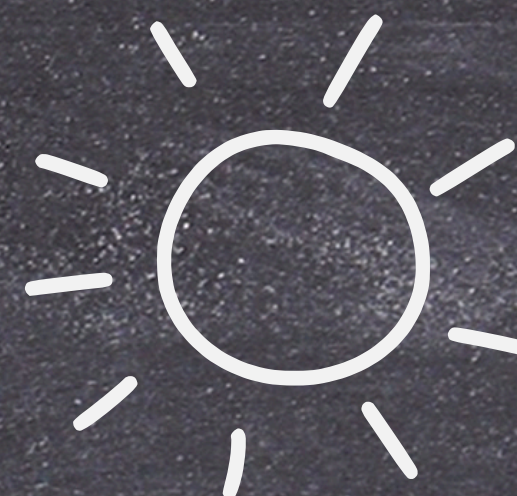

Lastly, in history, we compared the suits worn by Yuri Gagarin, Neil Armstrong, and Tim Peake, discussing their evolution over time. The children loved exploring the distinct features of each suit.
